

Sprint Dundee

The finals of SprintDundee 2009 took place down Reform Street in Dundee on Saturday 22nd August as part of the city's Lord Provosts Parade. This year's event has seen heats taking place at eight venues across Dundee throughout July and August; in addition this year some trial heats were held in secondary schools as the net to find potential athletics talent for the future was cast wider.

The best athletes from each of the heats in the Under 8, 10, 12, 14 and 16 age groups were then invited to take part in the grand finale to this years programme. In each age group the athletes took part in a series of heats before the top performers of the day made their way through to the finals.

After some fantastic competitive racing the champions were decided and the top three in each event all got the chance to get up on the events main stage in front of the crowds to be presented with their medals.
