

Street Rugby

Two coaches and three volunteer coaches have just completed the first of four blocks of Street Rugby in Fife. The aim of street rugby is to target areas that have been identified by Community Safety Partnerships and integrate with local youths and try to encouraging them to participate in mainstream rugby within a local club. Street Rugby simply offers the youth something to do in the evenings and so far the first block of activity in Fife which took place in Leslie (Glenrothes) has been very successful. The Fife Street Rugby team will now move on to Warout (Glenrothes) for several weeks with sessions planned for Carlton (Glenrothes) and Abbeyview (Dunfermline) throughout July.

Street Rugby sessions have also just been completed in Montrose, Arbroath, Menzieshill (Dundee) and Muirton (P&K).

Watch out for Street Rugby which will continue to be delivered throughout Tayside & Fife in the coming months.
